

COVID-19

VISITING YOUR GP SURGERY

PLEASE WEAR FACE COVERINGS.
COVID-19 PROTECTIONS ARE
STILL IN PLACE IN THIS SURGERY.

In line with current **Government guidance** patients are required to continue to wear a face covering in all healthcare settings.

Face coverings primarily protect others, so doing so – unless exempt – is key to preventing spread of infection.

**CONTINUE TO RESPECT
(2M) SOCIAL DISTANCING**

**TEST AND ISOLATE IF
YOU HAVE ANY SYMPTOMS.**

If you have symptoms you must get a **PCR test** as soon as possible & before visiting your GP. **Rapid lateral flow tests should not be used to confirm infection.**

It's vital that you and anyone in your household **isolate until you receive your test result**, and for 10 days thereafter if the result is positive.

**WASH/SANITISE
HANDS REGULARLY**
